The "Advanced" search option in Worldcat Discovery allows you to perform expert and selected periodical databases searches. At the WorldCat Discovery search screen box click on ADVANCED SEARCH. Use the fields, limiters, add more rows as desired, as well as use the boolean operators of AND, OR, NOT.

To begin, at KSU homepage click on Academics, then Library, then Library Catalog. Then follow the steps as shown:
1) At Worldcat Discovery search bar click on "Advance."

2) Select desired databases as shown by checking or unchecking. Then click on "Save Changes."
3) Type your search terms and then click on search.

4) At the list of results, select the one of interest by click on the title.
5) Click on "view online."

6) Sign in to access the full text article.
