CONTROLLED CHARGES GUIDE

5 Improve operational discipline

1. **Improve operational discipline** by ensuring that all staff are aware of their responsibilities and the importance of following procedures. This includes providing regular training and updates on safety protocols and operational standards.

2. **Enhance communication** between different departments and teams to ensure that everyone is on the same page. Regular meetings and clear lines of communication are essential for maintaining high operational discipline.

3. **Implement a robust quality control system** to identify and address any issues or defects in a timely manner. This involves setting clear standards and conducting regular audits to ensure that all work meets the required quality.
